BK11 LOUNGE CHAIR

MADE BY BY CARL HANSEN & SON

While the BK11 Lounge Chair was made for the outdoors, its beautiful teak finish means it would feel right at home in your living room, as well. For Bodil Kjær, designing has always involved a dialogue with architecture, and her work has always been created for humans. She has worked to create harmony between design and architecture - an ambition that, in 1959, resulted in an elegant outdoor furniture series characterized by such high functional and aesthetic qualities, that it was also suitable for indoor use. The furniture has a clear identity, an evident simplicity, and is based on high-quality materials and superior craftsmanship.
