

## EYE SCONCE

**MADE BY BY SERGE MOUILLE**

Throughout the 1950s Mouille designed large, angular, insect-like wall mounted and standing lamps with several arms and smaller, more curved wall sconces. He worked to achieve a kinetic, sculptural aesthetic that evoked a sense of movement in space. The Mouille "œil" or Eye Sconce is named for the shape of the shade. This simple yet practical lamp is suitable for many applications due to its diminutive scale and shade that both tilts and swivels. Switch on mounting plate.

### **Dimensions**

8" W x 10" D x 5" H

### **Material Options**
