

KINGDOM COLLECTION KDS.02.01

MADE BY BY LINDSEY ADELMAN

The inspiration for the versatile Kingdom lighting system came from the natural drape and growth patterns of the Burro's Tail plant. Each component of the spine is machined from solid aluminum and when assembled, fully articulates within its self-regulated range of motion, creating a rational curvature. The glass shades are mold-blown by hand and illuminated by LEDs. Designed by Karl Zahn for Lindsey Adelman Studio.

Dimensions

H 19in/48cm W 5in/13cm D 5in/13cm
