

OW124 BEAK CHAIR

MADE BY BY CARL HANSEN & SON

Ole Wanscher's Beak Chair, designed in 1951, represents his outstanding sense of craftsmanship and design. Details such as the distinctive beak-like armrests that inspired the chair's nickname demand exquisite materials and exemplary craftsmanship. Wanscher's sense for subtle detailing is also expressed in the discreet cover caps on the side of the armrests, reminiscent of a bird's eye. The lounge chair's soft, curved elements seamlessly join one another in a light, organic flow.
