

ROWLANDS SIDEBOARD

MADE BY BY SPEKE KLEIN

The Rowlands family of designs celebrates solid wood. The organic beauty of wood's natural graining and subtle colour changes is showcased throughout. The careful attention to detail, such as the precision finger-jointing, carefully beveled edges and seamlessly veneered back panels, brings everything together in a unified whole. Here, the almost limitless adaptations of this multi-faceted cabinet make it a timeless storage unit for a variety of needs, from sideboard to entertainment unit to dresser.
