

## VA75 FOYER SERIES BENCH

**MADE BY BY CARL HANSEN & SON**

Designed by VILHELM LAURITZEN ARCHITECTS, the Foyer series consists of a bench, a sofa and a lounge chair, all of which are characterised by a unique interplay between the oak frame and the upholstered seats and backrests, which almost seem to float. The series is meticulously upholstered in fabric or leather. It requires time-consuming precision and craftsmanship to upholster the seats and backrests, which feature handmade buttons. Armrests and legs on both sofa and chair are assembled from three parts, and hand-polished with the utmost care to avoid the appearance of noticeable transitions. Despite the series' delicate idiom, comfort is still central to the soft seating and backrests of the design.

### **Dimensions**

W: 48 x D: 45,5 x H 238,5 cm, 93.9"x 18.9"

### **Material Options**

Oak soap, oak oil  
Available in a selection of upholstery options.
