

## BB.05.36

BY **LINDSEY ADELMAN**

The inspiration for Branching Bubble, first created in 2006, was the brass swivel joints and elbows found in the industrial stores on lower Manhattan's Canal Street. What would happen if you took those shapes and re-engineered them, creating something radical and unexpected? And what if you combined them with graceful, hand-blown glass globes, like those made by Michiko Sakano, a Brooklyn-based artist with an amazing eye who is steeped in traditional technique?

### **Dimensions**

H 26in / 66cm
