

BK16 SIDE TABLE

MADE BY BY CARL HANSEN & SON

The BK16 side table was designed in 1959 by Danish architect and professor Bodil Kjaer. Part of a collection of beautifully crafted indoor-outdoor furniture in solid teak, its Cubist-inspired form echoes other designs in the series, all of which have a clean-lined and geometric quality. Perfectly proportioned to match the height of the collection's lounge chair, the BK16 side table displays the same superior craftsmanship and striking simplicity that underpins the entire Indoor-Outdoor Series.

Dimensions

H18.5" x wW27.2" x D26"
