

## BOCCI 93.1L RANDOM

BY **BOCCI**

93 is created by pouring molten aluminum into a hand-blown glass vessel. As the metal moves and cools, it leaves behind a suspended trace of its flow, each piece preserving a single, unrepeatable moment.

Illuminated from within, light reveals the aluminum's oxidized contours and the subtle variations formed by heat and pressure. Every 93 is hand-formed in Bocci's Vancouver studio, resulting in subtle variations from piece to piece.

### **Dimensions**

Diameter: +/-11.5"\* |  $\pm\varnothing 292\text{mm}$

\*Every single Bocci product is handmade. Each one is variously blown, poured, carved, polished, packed and dispatched directly by Bocci. As such, no two products are identical; they are individual, irregular expressions of Bocci's research.

### **Material Options**

Glass, aluminum, electrical components  
Available in a selection of canopy finishes and sizes (depending on wiring—consult your electrician)

### **Lamping**

Power — 12V low voltage. 2W LED  
LED dimming — ELV dimming  
CCT — 2700K  
IP rating — IP30, suitable for dry locations
