

CAROUSEL CHANDELIER

BY ATELIER 001

Inspired by planet-like shapes and textures, the Cosmic collection plays with both metal properties and a selection of patina finishes. The Carousel Chandelier features six finely hand-spun brass plates, finished in a combination of finishes to create its individual appearance. The light is projected into the shade and reflects out, illuminating without creating a glare. Softly illuminated with integrated LED from within, this sculptural ceiling piece sits elegantly in both contemporary and vintage-inspired interiors. Please note that each piece is individually handmade, therefore unique in its own way.
