

CH78 MAMA BEAR CHAIR

BY CARL HANSEN & SON

Affectionately known as the Mama Bear Chair, the CH78 Lounge Chair by Hans J. Wegner was originally introduced in 1954 as an extension of his CH71 Chair (1952) design. An antidote to the often-heavy lounge chairs of his time, Mama Bear's sculptural silhouette is defined by a series of inviting curves that offer up a warm embrace. Frame, armrests, and legs are crafted for stability from solid FSC™-certified wood. An optional headrest in leather or corresponding fabric completes the design. Neckpiece sold separately.

Dimensions

33"w x 31.5"D x 41.5"H, 15.5" Seat Height
