

CHADWICK CHAIR

BY KNOLL

One chair. Multiple functions. Perfect for working, meeting or training. Chadwick is a new definition of affordable seating. Don Chadwick, an ergonomic design pioneer, created a chair that embodies the best of his thinking with the finest principles of Knoll design. From its streamlined form to its smart engineering, Chadwick is the office chair refined – and redefined. Its Active Suspension™ technology couples a unique synchronized recline with a proprietary elastomeric fabric that together anticipate and respond to your body's movements throughout the day with energizing comfort and a supportive ride. Chadwick strikes the perfect balance of simplicity and innovation that is just right.
