

DIMPLE LAMP

BY ANNA KARLIN

Dimple explores the idea of dependency and support in both an emotional and physical sense represented in this piece by the inherent material qualities of glass, metal and marble. Whilst the glass is still hot and in the hand blowing stage, an impression is made in the glass oviform allowing the carved marble sphere to nestle in the resulting dimple. The assemblage rests on a brass cube with a hand antiqued finish.

Dimensions

15"W x 10"D x 13"H

Material Options

Glass / Brass Plated Steel / Portuguese
Pink Marble

Lamping

G9 LED Bulb / Dimmable
