# HOLLACE CLUNY

## **GB LOUNGE COLLECTION**

### MADE BY BY KARAKTER

Dutch industrial designer Gijs Bakker had already established a reputation for his aluminum jewelry when he decided to turn his attention to designing a chair. Inspired by a competition held by Dunlop, the rubber foam manufacturer, Bakker took a piece of foam, bent it at a 90 degree angle, and fixed it in a metal frame. The result was the GB Lounge, a modular lounge chair whose simple silhouette is enhanced by invitingly overstuffed upholstery.
