

## METRONOME READING LAMP

### **BY APPARATUS**

The Metronome Articulating Floor Lamp, by Apparatus, evokes the measure and balance of its namesake. The patinated brass sphere perches atop the conical base, which is hand-wrapped calf suede to provide a lush tactile contrast. A channel in the firmly grounded base reveals an intimate connection between the two forms. A dimmer knob is set into the base.

#### **Dimensions**

4" to 60" H x 37.5" L rotating arm

#### **Material Options**

Aged brass, oil rubbed bronze, blackened brass, or tarnished silver. Tarnished silver available for an up-charge with black, bronze or mink suede

#### **Lamping**

1 x 3W dimmable, LED bulb included.
