

MOS COLLECTION

BY BOVER

MOS is a generous rhomboidal structure made of handmade ribbon shades. Its timelessness and great versatility allow it to be installed in all types of environments; both residential and commercial.
Lamps in big format, warm light, big balls with circular shape that fill the space and become high decorative elements with high light comfort. Due to its large measures, MOS are specifically indicated to contract market and indoor use. Its structure ends with an opal white glass diffuser that blends and directs bottom light. MOS has been manually manufacted with translucent ribbon.
