

ORION DINING TABLE-TIMBER OR TIMBER & METAL BASE

BY DE LA ESPADA

Orion, named after the most recognisable constellation in the night sky, artfully explores the concept of repetition with a central leg made from a series of overlapping solid wood slats forming a semi-oval met by a smooth curve of brass or copper or all timber. Expressing contemporary artistry, this table has a sculptural form imbued with the warmth of solid wood, bringing interest and a generous gathering place to any dining room.
