

SAINTE ATELIER COLLECTION

MADE BY BY LAMBERT & FILS

Sainte's Atelier Series is scaled for large spaces and high ceilings—composed of boldly hued laminated glass panels with pronounced presence and weight. The dynamic colour options for this series harken a sense of majesty: lighting that creates a spectacle. A removable aluminum lightbox rests within the transparent glass and can be flipped around, allowing to cast light up or down. Created in collaboration with Canadian designer Rachel Bussin.

Dimensions	Material Options	Lamping
